

Systems Protector

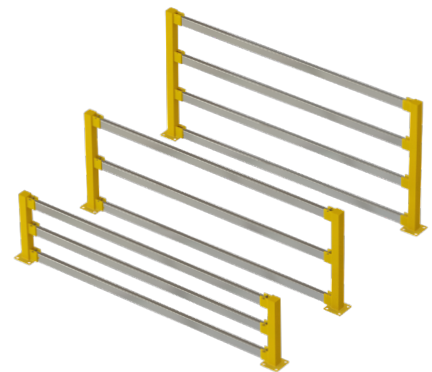

Protects essential systems while maintaining accessibility.

Are you tired of runaway pallets, stock carts and forklifts banging up the electrical, plumbing, refrigeration and information systems that are critical to keeping your business running? CartStop Systems Protector provides reliable protection from damaging blows, saving you money on costly repairs, while allowing full access to your systems when needed.

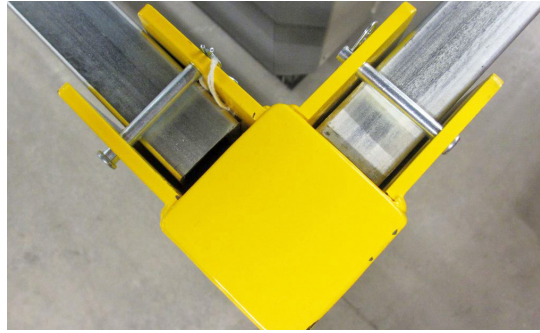

Tough Heavy-duty steel construction with safety yellow powder coat finish is impact resistant to warehouse equipment

Shock Absorbing Steel cross members safely protect critical systems, yet can be easily removed to allow access for maintenance and service

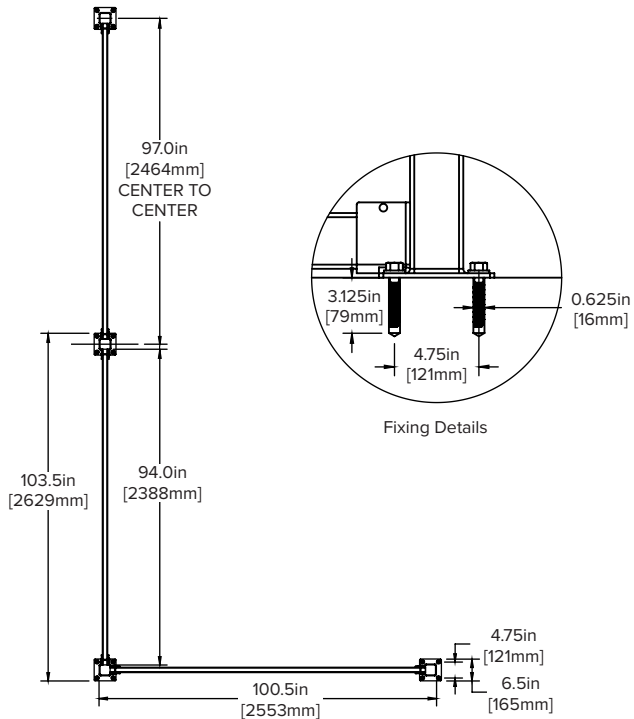

Speedy Install Self-threading concrete anchors eliminate the need for messy adhesives or quick-set cement
